

Bird house decor

tender leaf®
printables
www.tenderleaftoys.com

Make your own little bird house decoration with this simple craft. Cut out the shapes along the dashed lines, glue the blue house piece around an empty cardboard tube, and stick the remaining pieces onto card. Carefully cut out the circular openings on the roof and house, then glue the roof on top, add the bird inside, and attach a string for hanging.

Fold along dotted line

Here's one we made!

Top tip!

Turn this into a sweet shelfie decoration by skipping the string and simply balancing the roof and bird on top. Decorate your house and roof with pens, crayons, or any crafty bits you love!
